Chris L. Baroldy

“We have had several projects at the Judicial Center before the end of the biennium including upgrading equipment in our videoconference room, installing a new portable videoconferencing system, upgrading microphones, a sound masking project, an LCD projector unit for our large conference room, and upgrading the audio in three courtrooms. With the end of the biennium, we were faced with short deadlines and last minute decisions. The dedication and knowledge of the staff made all our projects a seamless transition. It has been a pleasure to work with the team.”
